

ANTI-AIRCRAFT SHOOTING

If a Tank Team shooting at aircraft is at the very edge of a wood, does it see the aircraft unconcealed, as it would an enemy tank?

Yes, terrain works the same for aircraft as for any other team, with the exception that all Short Terrain and any Tall Terrain more than 4"/10cm from the ground Team is ignored.

If my Anti-aircraft team is in the middle of a wood, can it still shoot at aircraft?

Yes, although the Aircraft will be Concealed. Nothing ever blocks Line of Sight to Flying Aircraft. Presumably the Anti-aircraft Unit is set up in a small clearing.

Does Smoke ever block Line-of-Sight to and from Flying Aircraft?

No, however it does provide Concealment. Smoke is in effect treated as Tall Terrain for the purpose of Line-of-Sight to Flying Aircraft, meaning if within 4"/10cm of anti-aircraft team or target, but is still just Smoke for Concealment.

The 30mm gun on my BMP-2 is an Anti-helicopter weapon. When it shoots at a Helicopter, does it use its full ROF?

No. It is not a Dedicated AA weapon, so has ROF 1.

SHOOTING AT AIRCRAFT (P. 39)

Only Anti-aircraft (AA) weapons can shoot at Strike Aircraft.

AA, Anti-helicopter, and Guided weapons and Infantry (not Heavy Weapons) can shoot at flying Helicopters.

Can shoot in own Shooting Step or immediately before Aircraft shoots in enemy Shooting Step. If they shoot in enemy Shooting Step, they cannot Defensive Fire, Shoot next Shooting Step, or Assault next Assault Step.

Guided missiles (other than Guided AA) can only shoot in own Shooting Step.
